OBITUARY

ROBERT KERR

The influenza epidemic continues in its ravages in this district, and quite a number of homes have during the past couple of weeks been caused to mourn the loss of dear ones. The latest to succumb was Robert Kerr, junior member of the well-known progressive firm of Kerr Brothers, of Bellevue. In the death of Mr. Kerr, which occurred at 6:15 on Saturday evening, Bellevue has lost one of its best citizens, a man of the most sterling qualities and of the type that no community today can afford to do without. He was but a young man and leaves a young wife and child; besides his two brothers, who remain as senior members of the firm. "Boby," as he was familiarly known, was a violinist of exceptional ability, winning highest honors in some of the leading musical academies in England and America. Since coming to The Pass a few years ago, he became a favorite as leader of the Kerr orchestra, and was willing and ready at all times to render service in any cause worthy of support.

Mr. Kerr was a member of Carlton Lodge of Independent Order of Oddfellows at Prince George.

Funeral service was held at the family home in Bellevue on Monday afternoon by the Rev. Harry Peters, and interment took place in Bellevue cemetery. The Oddfellows and Masons, of which organizations deceased was a member, were in attendance, and those members of each acted as pallbearers. The Bellevue Orchestra, of which Mr. Kerr was leader, was in attendance, and during the service at the home and graveside rendered appropriate music.

Out of respect for the deceased, all places of business at Bellevue and Hillcrest were closed on Monday afternoon.

With the grief stricken relatives we join in sincerest sympathy.

ALFRED SHELDON

The death of Alfred Sheldon occurred at Bellevue on Friday morning, following pneumonia. Mr. Sheldon has been confined to his home for a few days with influenza and was rapidly recovering, when he suffered a relapse and contracted pneumonia, lasting only a few days till death came. He leaves, besides a sorrowing wife, two small children. Interment took place at Bellevue cemetery on Saturday afternoon, arrangements being in charge of the local lodge of Oddfellows, of which deceased was a member. The funeral service was conducted by the Rev. H. Clay, of Coleman, and was very largely attended.

W. B. McWILLIAMS

William Buel McWilliams, son of Mr. and Mrs. McWilliams, of Lundbreck, died of influenza and pneumonia on Sunday, February 15th. Deceased came to Alberta in 1912 from Chatham, Ontario, and took up residence on a homestead near Livingstone. He enlisted in the 13th O. M. R. in the spring of 1916, and in August of the same year entered France. He was wounded twice in 1917 and was sent back to Canada in 1918 as unfit for further service. He is survived by his mother and father, three sisters, Mrs. G. D. Arnold, of Chatham, Ont.; Mrs. S. L. Tustian and Miss Nellie McWilliams, of Cowley, and a brother, Douglas, at home.

Several important real estate deals have been put through during the week, which in the spring will result in considerable improvement in the appearance of the business section of Victoria Street.

HOUKEY??

A sanguinary conflict between the Scries and the Pharisees will be staged on the Frank Pink on Monday, March 1st, at 8 p. m., which the public is invited to witness.

A venomous, vituperative challenge has been sent to the Bellevue Pharisees by the Blairmore Scries and the Pharisees have responded in tones belittling their nature.

The line-up is as follows:

SCRIES
R. Green, centre
J. H. Smith, r. wing
A. Granger, l. wing
H. Bennett, cover
W. Campbell, point
M. Condon, c. point
A. Hamilton, goal
J. Radford

PHARISEES

Fred Pulzett
M. Ford
F. Tuley
R. Scott
J. Radford

Referees—W. P. Williams, L. P. Robert and W. Turner

Official Surgeon—Dr. Baker.
Timekeeper—A. May.

Absolutely no regard will be had for Matthew 5th and 7th.

The Fire Brigade are requested to attend.

The prizes will be a tin of sardines to each of the victors.

A collection will be taken for the risk management.

A terrible engagement will undoubtedly be witnessed.

Seattle Contractor Buys Big Ranch at Lundbreck

Lundbreck, Feb. 24.—One of the largest land deals of the year has just been completed in this district. Mr. D. McEchern, of Seattle, the contracting firm of McEchern Bros., of Seattle and Tacoma, Washington, and Portland, Oregon, whose firm is just completing the building at the Seattle harbor of the largest cement pier in the United States, is the buyer. The purchase includes the Wardman holdings, the Vizzoni properties and several other parcels.

Mr. McEchern intends to establish a model stock ranch, going in largely for the better grade of beef cattle. He says that he has been all over the western States and knows of no other country which offers the opportunities and inducements which are to be had in this part of Alberta. He is establishing this ranch primarily for his two sons.

Mr. McEchern also says that this summer will see a lot of Americans from the State of Washington come to Alberta.

Mr. A. L. McPherson, who is a lifelong friend of Mr. McEchern, first brought his attention to this district and handled all the purchases.

Leslie Grossmith Coming

Leslie Grossmith, one of the most successful musical artists touring Western Canada, will perform here shortly.

Particulars will be announced in our next issue.

A Real Western Pioneer Dead

The death took place at the general hospital yesterday of John McKay, one of the real pioneers of the west, at the age of eighty-seven. Deceased was born at Cathness, Scotland, and had been in Manitoba sixty-five years.

He was with Thomas Scott at the time of Riel troubles and had been one of the prisoners held at that time in Fort Garry.

Despite his years the late John McKay was hale and hearty and had undertaken to drive north before the last cold spell set in. He had forgotten to carry mitts, and when the horses became unmanageable on the trip his hands were frozen. He was brought in to the hospital but died from the effects of the exposure.—Echo

Hand power Red Star Washing machine, \$21.00.

The Blairmore Hardware Co. Victoria Street

May Postpone Sale Of German Liners

Washington, Feb. 19.—Conflicting opinions as to the advisability of the immediate sale of thirty-four former German passenger liners recently offered, by the shipping board, were presented to the senate commerce committee Wednesday by members of the board.

Chairman Payne told the committee that to put the vessels in condition for passenger service would involve an expense of more than \$75,000,000 and offered a resolution approved by three of the four members of the board requesting authority to put the ships on the market. All bids recently received for the purchase of the liners have been rejected, he said.

Vice Chairman Stevens, of the board, on the other hand, stated that the vessels should not be sold at this time, as the true valuation had never been worked

out. He recommended that the vessels be remodelled before their sale. Estimates of the value of the vessels received by the board, he said, had been made with a depreciation charge of five per cent, while only two and a half per cent should thus be charged off.

Canada's Place In the Empire

Canada is the foremost of the family of the British Empire and, being nearest, the great responsibility rests upon her, not alone to aid and succor in battle, but to lead the van in all forms of industrial life; to seem every opportunity to forward the grandeur and stability. Loyal of herself and of the Empire.

The Nelson-Coleman hockey game has been postponed indefinitely.

Ladies A Word With You About Your Skin

It's not make-out time every day, but your skin needs a little TLC. Catuira Talcum Powder is the perfect solution. It's gentle, it's soft, and it's just what your skin needs to feel like a cloud. Catuira Talcum Powder is the perfect solution. It's gentle, it's soft, and it's just what your skin needs to feel like a cloud.

Britain—The World's Terminal

In his review of Great Britain's industrial and financial future, to which certain references were made in this column last week, Lord Northcliffe not only told his American interviewer of the ability being displayed in reforming the status of the industrial workers, and gave reasons why neither the United States nor any other country could succeed in taking away from Britain her supremacy in shipping, but he submitted a logical reason why England would continue to be the centre of world trade and finance. In this connection he said: "Americans who come to London arrive here not only to do business in small country, which you can almost put inside the state of New York, is merely the great terminal of nearly a hundred diverse sections comprising the British Empire. That Empire is roughly divided into half a dozen free nations, quite independent of England—the great collecting and distributing centre of the whole—if they choose to be independent. If Canada, or Australia, or New Zealand wish to cut the connection tomorrow, they can do so without suffering any bad feeling behind. Sometimes there is a ruffled talk between us, as there is between any other great business, but when it comes to what I understand you call a 'showdown,' it is seen that the business alliance is of the strongest."

"Never forget, too, we are linked by sentiment strong enough to unite us to death itself, as the world has lately seen, when from the remote parts of Australia, and from such widely separated places as Central Africa, the Klondike and the Falkland Islands, came these busy Britons, who were not killed, who will give you an excellent stand-up business fight in South America and elsewhere. From all those places there flowed to France, to Palestine, to Egypt, to Asia Minor, the fine young people who formed a portion of the land and sea armies of the British Empire, which numbered nearly a million, and of whom 1,000,000 were killed and missing (and missing means dead), and of whom our losses in dead officers alone amounted to 50,000."

"A people like ours, backed up by practically every single raw material the world contains, except, I understand, potash, which seems one of your weakness, too, have every reason for the silent confidence they feel in the future. In addition to our supply of raw material, we have the best skilled labor in the world. I say without hesitation that, mechanic for mechanic, ours are the best, for we have practically no aliens."

Financially, Lord Northcliffe agreed with some of the best bankers in England that Great Britain does not need to borrow further from the United States. The position of the five great British banking combinations, holding amongst them 85 per cent. of

the deposits of the English banks is so strong that any present or immediately prospective British trade can be financed without seeking outside help, and it is not too much to say, says the editor of Wall Street Journal, who interviewed Lord Northcliffe, that the task the great English bankers (and no country possesses greater or perhaps as great) would like to turn immediate attention to is paying off the British national debt to the United States, irrespective of what is owing to Great Britain by her allies. And in this connection it is worthy of note, and a source of British confidence in the future, that this year Great Britain will be able to provide all national expenditures out of current taxation and still be able to make a substantial reduction in the war debt.

Concluding his statement of the British position, Lord Northcliffe made reference to a well-known characteristic of the British race. He said: "We have many faults as a people. The French say that we have the faculty of putting our worst foot foremost. We are bad advertisers. We always like to grumble. It amuses one to notice how violently we grumble at a small business loss and how quietly we pocket a gigantic business achievement. We are not good 'boomers'; but I do happen to understand something about propaganda, and having the opportunity of speaking to a great body of business men through the Wall Street Journal, I would ask the many business friends I have made at business conventions in the United States to apply a large amount of salt to any dish served up by young and inexperienced cable correspondents who blow into London, and, because they find an absence of the noise and rush to which they are accustomed at home, fail to realize that Mr. John Bull is back at his old stand and is about to give you a thoroughly busy time in many markets that you will find are not such easily cut lemons as some of your enthusiasts be taken."

All of which should help to dissipate from the minds of Canadians, fed up with articles in the United States newspaper and magazine press, any fear that Great Britain is in danger of losing her old-time position as leader in the world of finance, shipping, manufacturing and commerce.

Surveying by Aeroplane
The aeroplane in Tasmania has been used to survey a route for the erection of a transmission line, capable of delivering 10,000 horsepower of electric current from the Great Lake Waters to Launceston, a distance of 50 miles. No man has ever been through this part of the country. The aeroplane, which carried an engineer of the government hydro-electric department, traveled 180 miles, and flew over wild mountain peaks, rising to an altitude of 6,000 feet, and over heavily timbered country, numerous lakes, bays and rivers. Information which in the ordinary way would have taken some months to obtain, owing to the forbidding nature of the country, was gained in a couple of hours.

Plans for Prince's Visit to Australia
London.—Arrangements are being made for the Prince of Wales' visit to Australia and New Zealand this year. The Prince will, it is hoped, arrive in New Zealand on April 18, and reach Australia on May 18, proceeding by the Panama Canal, both going and coming, and visiting the Barbadoes on the way out.

Cheap Form of Insurance

You are insured against corns and bunions by the purchase of a single 25c bottle of Putnam's Corn Extract. It cures painlessly in 24 hours. Try Putnam's Extract, 25c at all dealers.

We often fail to recognize it, but the fact remains that today is trying to live up to the highest standard of yesterday's thought and determination.

A Morning Dish Of Grape-Nuts

certainly does hearten one up for the day. Why shouldn't it? Grape-Nuts is ready-cooked, ready-sweetened, and contains just those good elements nature requires for the strength to do things. Make Grape-Nuts your home cereal "There's a Reason"

CHILBLAINS

Easily and Quickly Cured with
EGYPTIAN LINIMENT
For Sale at All Dealers
Douglas & Co., Proprs. Napanee, Ont.

Barley 2,000 Years Old
By the generosity of Lady Ladlow, Rothamsted (England) experimental station has secured a coin which is of special interest to agriculturists. Struck in the city of Metapontum in 330 B.C., it bears on its reverse side the representation of an ear of barley, which is so accurately moulded that the variety can be identified. The barley is the six-rowed variety, which has always been supposed to be the oldest form in cultivation. We now know that it was familiar in southern Italy over two thousand years ago.

BABY'S OWN TABLETS ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little one she always keeps a supply on hand, for the first trial convinces her there is nothing to equal them in keeping children well. The Tablets are a mild but thorough laxative which regulate the bowels and strengthen the stomach, thus driving out constipation and indigestion, colds and simple fevers and making healthy children. Contrasting them, Mrs. Saluste Pelletier, St. Dunas, Que., writes:—"I have used Baby's Own Tablets for the past two years and am never without them in the house. They have always given me the greatest satisfaction. I can gladly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

A new folding camera is equipped with an additional bellows, to be drawn out and extended beside the regular one to permit accurate focusing to be done until a picture is taken.

Minard's Liniment for sale everywhere.

It has been estimated that \$5,720 pairs of old shoes are needed—every mile of a road composition made of such rocks, pebbles, scrap leather that has been patented in Great Britain.

You Can Be Cured of Catarrh

The Pure Balsamic Essences of Catarrhones afford Surer and Quickest Cure. Catarrhones is certain to cure because it is healing vapor carried with the breath direct to the seat of the chest, nose or throat trouble. Being composed of the purest balsams and pure essences, it immediately attacks irritations, facilitates the ejection of mucus, soothes and stimulates the lungs and bronchial tubes. The marvel of the age in curing nose, throat and bronchial troubles, that's what thousands say about Catarrhones. There is nothing so sure to cure, and to those in fear of changeable weather—those who easily catch cold—those who work among lung-lungling surroundings, or where dust, impure air, fog or damp can affect them—let them get Catarrhones and use it several times daily—it will cure every time.

Large size Catarrhones, sufficient for two months use; guaranteed, price, \$1.00. Smaller size, the sample size, 25c. Sold everywhere.

New Diamond Fields

Tharing Will Be Proclaimed Open for Digging March 20

Tharing, a waterless, treeless and virtually gameless desert near Tamsui, in Bechnuanland, promises to be the scene of the biggest diamond claim-staking rush in South African history. It is understood that Tharing will be proclaimed open for diamond digging about March 20.

Amazing stories are afloat concerning the wonderful richness of the district, and prospective diggers from the Cape and the Midlands, and even the Congo, are preparing to try their luck in the new field. Despite warnings of possible failure, men are abandoning good jobs in various parts of the country in order to be free to stake out claims when the proclamation is issued. Hundreds of women also are arranging to go to the new diggings.

The government is preparing to cope with the anticipated rush to Tharing, and a township to receive the new community is being laid out. Tamsui is situated about forty miles south of Vryburg, and about one hundred miles north of Kimberley, the last-named place being famous for its great diamond mines.

Cuba is the greatest consumer of raisins among Spanish-American nations.

W. N. O. 1304

Will Standardize Coals of Alberta

Research Council to Consider Aeronautics and Scientific Education

Ottawa.—The Research Council has appointed an air research commission with a membership of four, with a large association throughout the Dominion to advise and co-operate with the Air Board of the Dominion on the lines of research to develop aeronautics in Canada. This commission will report on the possibilities, for this week, which may be found at various centres in the Dominion, and it will undertake investigations independently. The fuel research board to standardize the coals of Alberta has been fully constituted and the work will be carried out in all probability, under the auspices of the University of Alberta at Edmonton.

Committees were also appointed by the council at its meeting here on food research, physics and engineering. The first-named committee is to investigate, among other things, the character and action of the so-called vitamins, which are now known to play such an important part in the human diet.

The council has made arrangements to discuss with the authorities of Queen's, Laval, Dalhousie and Manitoba universities the measures which may be necessary to promote advanced scientific, education and scientific research.

She Thought Dyeing Was Old Fashioned

But "Diamond Dyes" Made Her Faded, Shabby, Old Garments Like New

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods.—dresses, houses, stockings, skirts, children's coats, feathers, draperies, coverings—everything.

The Direction Book with each package tells how to diamond dye over any color.

To match any material, have dealer show you "Diamond Dye" Color Card.

Parole System Praised

No Such Thing as the Criminal Type

In the Opinion of Experts

Judge W. P. Archibald, Dominion parole officer and one of the greatest experts on criminology on the continent, recently delivered an address on the question of the parole system, in the course of which he declared that the criminal could not be looked upon as one beyond the pale of Christian influence. He looked confidently forward, he said, to the time when crime would cease, and that when time would come, he added, when they had "the right men and women to handle the youth of the country as they should be handled."

On the question of parole, Judge Archibald said that out of 11,000 prisoners who had been liberated under this system from Canadian penitentiaries, only 2½ per cent had violated the terms under which they had been released.

In another part of his address the judge said that in the opinion of experts in criminology there was no such thing as what was commonly described as the criminal type. People were far too ready to ostracize their fellow men when he had gone astray and to profess to believe that because a man had once gone wrong he must always be wrong.

Piles Cured in 6 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure Itching, Blind, Bleeding, or Protruding Piles. Stops Irritation; Soothes and Heals. You can get relief sleep after the first application. Price 60c.

Civil Service Experts Resign

Private Concerns Are Offering More Attractive Salaries Than Paid by Dominion Government

Considerable comment has been caused, especially amongst members of the Canadian Civil Service, over the fact of a number of members of the service, principally employed in the Geological Survey, Mines, and other technical departments, having resigned their positions to take posts with private concerns, more particularly in the United States. Petroleum interests in that country have recently taken six experts from the Department of Mines, and other members of the same department are said to be about to follow suit. Reasons are given for the situation are the high cost of living and the fact that the private concerns are offering very much more attractive salaries than are being paid by the Dominion Government.

NEURITIS

So many have Neuritis, the painful, paralyzing inflammation of the nerves, that it is almost a daily ailment. If you are a victim, get relief at once.

Templeton's Rheumatic Capsules

Nothing else brings relief so quickly and so surely. Send for free sample to Templeton, 142 King St. W., Toronto. For sale at reliable druggists for \$1.00 a box.

ASTHMA

Templeton's RAZ-RAH Capsules are guaranteed to relieve ASTHMA. Don't suffer another day. Write Templeton, 142 King St. W., Toronto, for free sample. Reliable druggists sell them at \$1.00 a box.

May Get Part of German Naval Equipment

British Government Offers Dominion Some Reparation Claims

In the material which the allies are requiring Germany to deliver as compensation for the loss of German battleships at Scapa Flow are several floating docks, dredgers, hydraulic cranes, etc. It is understood that the British Government has made enquiry of the Canadian Government as to whether Canada would like to acquire any of these on account of Canada's reparation claims, and the matter is now being considered by the government.

It Has Been Said

That you have no idea how big the other fellow's troubles are. That money, like salt, is necessary to add flavor to life, but an overdose is harmful.

That the unfortunate thing about good resolutions is that they are often made too late.

That politeness is like an air-cushion, there may be nothing in it, but it eases the jolts wonderfully.

Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Catarhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or ringing in the ears. If it is entirely closed, Deafness is the result. Unless the inflammation can be removed and the tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the mucous surfaces. ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE. All Druggists 75c. Circulars free. F. J. Cliney & Co., Toronto, Ont.

Japanese children are taught at an early age to write and draw with both hands, and to this fact has been ascribed the superiority of Japanese art in certain directions especially in neat sewing.

A crowd of 1,000,000 persons with easy standing room would cover 70 acres.

Syria, almost the only country cultivating pistachio nuts, produces about 500,000 pounds a year.

Provincial Act to Restrict Townsites

Saskatchewan Reserves Rights Over the Railways

In future railways which build branch lines in Saskatchewan will be restricted somewhat in their location of townsites by the Town Planning Act, which received its second reading in the legislature. Hon. George Langley, in charge of the bill, said that it had been a misfortune in the past that railway companies had shown themselves selfish and erratic in their choice of townsite locations. In some cases they had crossed highways which had been improved at great expense and located the townsite some miles away from such roads, thus rendering them almost a waste of money. This would not be permitted in future, as the bill gave the government power to deal with the location of new townsites.

A large part of one of Finland's iron ore fields lies under the sea.

YOUNGSTERS!

Need "Cascarets" when Sick, Biliary, Constipated.

When your child is bilious, constipated, sick or full of cold; when the little tongue is coated, breath bad and stomach sour, get a box of Cascarets and straighten the little one right up. Children gladly take this harmless candy cathartic and it cleanses the little liver and bowels without gripping. Cascarets contain no calomel or dangerous drugs and can be depended upon to move the sour bile, gases and indigestible waste right out of the bowels. Best family cathartic because it never cramps, sickens or causes inconvenience.

An Original Mayor

Bermudox boasts the most independent and original Mayor in Bermuda in the person of Mr. W. C. B. B. B.

He will not accept any invitations to functions during his year of office and declines to be invested with the robe and chain of office.

A compositor by trade, Mr. Bustin will continue his occupation. He has been granted \$300 for out-of-pocket expenses and for loss of remunerative time while acting as mayor.

An Australian Joke

The Grocer.—Yes'm, the high price of mustard is due to the scarcity of fuel. You see, people are buying up mustard and are keeping themselves warm with poppices.—Sydney Bulletin.

About ninety per cent. of the Japanese people can read and write.

Office: Cameron Bldg., Coleman

For Sale

One saddle horse, saddle, saddle wallet and bridle. Apply to the Enterprise.

Next St. Patrick's Day parade is likely to be the last to be held in Montreal.

The Dumbells Are Coming

The "Dumbells," the favorite theatrical troupe of the Canadian soldiers in France, and now making a homecoming tour of the larger Canadian cities, presenting their original overseas musical revue, "Buff, Bing, Bang," will be the attraction at the opera house for one night, on Wednesday (ex. March 3rd).

The members of this organization are all soldiers who have served an average of sixteen months in the front lines before having been chosen by Capt. M. W. Plunkett for service in the entertainment branch of service. They told a record of over five hundred performances given immediately behind the lines in France, as well as forty performances, given since the armistice in Brussels and fifty eight performances in London, England, two weeks of which they were the attraction at the Coliseum, where they played to 91,200 people, who were anxious to see just how the boys were entertained at the front. The consensus of opinion, as voiced by the press and public, seems to be that the soldier boys were "sitting on the world" when it came to amusements.

This clever group of actor-soldiers present an up-to-the-minute musical revue, with special stage settings, gorgeous costumes and dazzling effects. It is the only all man "girl show" in the world and the singing of both the principals and chorus might be likened to a symphony played upon a great pipe organ, full of rich deep tones.

There are about twenty song numbers in the show and a half dozen dancing specialties.

One London paper in reviewing their performance said:

"Selkirk, I never, in the history of the Coliseum has such a sense of enthusiasm been witnessed as that which greeted the Dumbells upon the conclusion of their performance on Monday. It was a reception, too, that was splendidly deserved. All the best features of modern entertainment are embodied in their offering.

Each and every number has been finely produced, and the detail and finish would do credit to many West End revues. The settings are novel and artistic, and the gowns and lighting effects are all that could be desired. Add to these admirable qualities brilliant singing, sparkling comedy to wit and not a moment's pause during the whole time the curtain is up and the pleasure of the audience is easily accounted for."

Ode to the Ladies of Pense

This is the year the old maids love
This one year out of four,
When the girl who feels she's stranded
On a bleak and barren shore,
Can choose a mate without approach
And then can boldly woo him,
And if he fails or feigns
By thunder she can sue him,
For every maiden in the land
Of high or low degree;
Whatever be her walk in life
Has a right to have a lie,
And matrimony is the year
When she can safely nab him;
So, lonely maidens, be right out,
Unflinching now, and grab him,
But I would vain a warning sound:
At first be coy and tame
And sneak up on your quarry sly,
You may finish the game,
And if you fail to get a man,
Don't grieve, lament, or pout,
For ten to one the chances are
Your fatter off without.
And when the chase is complete
It's likely to be found
There'll be a shortage of the moon,
Not enough to go around.
For they've been dying rapidly
In numbers that appal
From stinging up their caravans
With monstrous alcohol.
But why doth some fair maiden
Worth a few dollars per
So often throw herself away
Upon a thriftless cur?
Why does she sto herself for life
To a lazy worthless clum,
Some swearing, smoking, shiftless bulk
Not worth a tankard's due?

To Whom it May Concern

This is to notify the public that as my wife, Mary Giza, has left my home, bed and board, without just cause, I, the undersigned, will not be responsible for any debts contracted by her after this date.

Dated at Coleman, Alberta, this 25th day of February, 1920.

STEVE GIZA.

Need Central Bureau

As a result of the western tour of G. M. Ponton, of the Canadian Trade commission, who was in Edmonton recently, it is being found that there is a great need of a central bureau to co-ordinate the efforts of the various boards of trade throughout the country. It is likely that one of the suggestions arising from the report of his tour will be along the lines that a central "clearing house" should be organized to bring the efforts of the various boards into harmony for the good of the whole Dominion, instead of having each separate organization working along its own lines with no thought as to the needs of its neighbors.—Edmonton Journal.

New Baseball Rules
For Season 1920

Chicago, February 16.—Chicago occupied the spotlight today in the baseball world. Baseball officials of five leagues were here. Two leagues held their annual meetings and the joint rules committee of the National and American leagues met in an extended session to amend the playing rules.

The American association, at its meeting, adopted a schedule while the Three League expanded its circuit from a six to an eight-club league.

The rules committee adopted numerous amendments to the playing code, and also added a number of changes to the scoring rules which were submitted by the Baseball Writers' association.

Chief among the rules were those relating to the home run, the intentional pass, the balk, the "dead ball" and legislation regarding the length of pitchers. In all 19 rules were amended and one added.

HAS ON INTENTIONAL PASS.
The additional deal with the intentional pass, which declares it illegal for the catcher to step from his box to aid the pitcher in pitching wide of the batsman.

If the catcher shall move out of position prior to the time the ball leaves the pitcher's hands, all runners who may be on bases shall be entitled to advance one base.

The rule governing the home run says that when a player knocks the ball into the stands or the crowd on fair ground he shall be given credit for a home run if he completes the circuit and all runners shall score ahead of him. In passing this rule, the committee argued it would increase the number of home runs a season and also work to the batter's advantage.

The rule as amended, says:

HOMERUN SCORES ALL.
"Provided, that if a batsman, in the last half of the final inning of any game, hits a home run over the fence or into the stand, all runners on the bases at the time, as well as the batsman, shall be entitled to score, and in such event, the final score of the game shall be the total number of runs made."

In explaining this rule, President Heydler of the National league, said:

"If the score should be nothing to nothing in the final half of the ninth inning and the bases were all occupied and the batsman knocked a ball into the stand, all runners would score and the final score would be 4 to 0."

RULE DEFINES BALK

The amendment dealing with "balk" reads:

"Any motion to pitch while standing in his position without having the ball in his possession or regardless of whether he makes any motion to pitch or not, if the pitcher takes a legal position on the rubber without the ball in his possession, or if he takes a pitching position on the rubber, and fails to deliver the ball to the bat, it shall be called a 'balk'."

Several additions are also added to this rule, one of which declares that the ball shall be declared a "dead" ball and no play can be made until the runner or runners reach the base or bases they are entitled to."

BALL DEAD IF BATTER HITS

In dealing with the "dead ball," the code was amended to read:

(Corrected in Page Five.)

Ross Hamilton as "Marjorie" and the famous "Dumbells" Quartette in their original revue entitled "Buff! Bing! Bang!" at the Opera House Wednesday March 3rd.

Realty Owner's Burden

The following, written for The Spokesman Review, should cause many realty owners to say "me too."

The people, more particularly those of the cities of this state, have gone money spenders in a craze, especially when it comes to real estate. The "Millionaire" has been the talk of the town, and the great burden of which falls upon real estate. If these expenditures are to continue, our system of using money must be changed, changed in such a way that some of the burden will be thrown upon the state. It always favors these improvident, not the booster class, but those who readily support the state, with their votes, but pay little toward their cost.

The great bulk of city real estate is non-productive, yet the owner not only has thousands invested therein, but adds to that, is compelled to dig up large sums of money for government purposes. Some one says: "Let him sell his property." Will some kind, altruistic individual show the way, particularly when based upon an ever-increasing tax burden? The well established revenue property barely pays over 7 or 8 per cent gross, yet the owner finds it necessary to pay the tax collector 10 or 12 per cent before he receives repairs and depreciation, to say nothing about a small rate of interest on his investment.

If increased taxation is to continue, the government will have to assume the property then this stream of money will be gone. Necessity will compel other ways of securing revenue. Why not take steps to make the chance now? Why not set at intangible property? Why not formulate a system of indirect taxation, and why not put into practice, as the national government has done, the income tax?

Surely, it is but fair and just that the one who makes the money and has the income, regardless of the source, should bear a corresponding cost of country. Yours for a bulk in this continuity increasing expenditure for public improvements to be paid by the unfortunate real estate holder or for a radical change in securing public revenues.—F. E. B.

Changes For

Temperance Act

Toronto, Feb. 24.—Among the changes in the Ontario Temperance Act urged upon Premier Durney by the temperance delegation, were the following:

Alcohol over a prescribed amount in the custody of any person in the province of Ontario in a private house or elsewhere to be registered and taxed.

Limit the holding of liquor in a private house as to exclude the serving of liquor at banquets, receptions and functions, contrary to the spirit of the law.

Limit the amount of liquor which may be supplied upon a doctor's certificate or kept in a doctor's possession; liquor prescribed or supplied for external use to be non-potable liquor. Provide prescription blanks with serial numbers with stamp of a convenient size which shall distinctly state the malady for which liquor is given and how it is to be used.

Limit the number of prescriptions that a person may have filled in a given time. Report the sections of the act which allow the sale of native wine for beverage purposes.

Provide that no person shall keep or have liquor in his house belonging to another person.

Give to magistrates option of imprisonment as well as fine for direct offences.

Amend the act forbidding the advertising of liquor, so as to prevent present evasions.

Cheerfulness

I know a man who makes it a rule to smother his day's work with good cheer. In his large business he makes every one with whom he comes in contact feel that life is a joy—not a grind. He is one of the happiest men I know. His whole life has been devoted to scattering sunshine over others.

He has been in the cheering up business ever since I have known him. It seems to be his side line, and it is an excellent one for all of us to carry. It will not interfere with our regular business and it will keep us in a healthy, happy mood, and that means mental harmony and efficiency; it means constructiveness, it means creativeness.

What is good to smother each day's work. It is a good plan to begin as early as possible in the day, for someone has said that if you keep pleasant until ten o'clock the rest of the day will take care of itself.—Marden.

Year's Work Of The Salvation Army In West Canada

The annual report of the Salvation Army for the year just shows that during the year the number of corps and activities in existence in western Canada was 138, the officers and cadets wholly employed being 334, and the local officers, bandmen and songsters serving without pay, 1,700. Thirty-eight thousand meetings were held, and 229 conversions were recorded. Upwards of a half million copies of the "War Cry" were sold in Western Canada.

The women's social work department operates five rescue and matron's houses and three children's homes in the western provinces, to which more than five hundred persons were admitted during the year.

In the department of men's social work, ten institutions were maintained, at which 5,483 meals and 97,448 beds were supplied, while 3,233 situations were found for unemployed men.

Representatives of the Army visited 964 inmates of prisons, and 268 persons were initiated in discharge from prison.

New Baseball Rules For Season 1920

(Continued from Page Four)

(1) A dead ball—A ball delivered to the bat by the pitcher, not struck at by the batsman, that touches any part of the batsman's person or clothing while he is standing in his position, or (2) a wildly pitched ball which the batsman strikes or attempts to strike, to do so, avoid being hit, but which ball accidentally hits his bat.

The fight on the freak deliveries occupied the greater part of the meeting. The board of directors of the American League adopted a rule which legislates such deliveries from the league after the season of 1920.

PITTSBURGH GAZETTE

When the committee took up this rule the National League members declared they thought some clubs would have more than two spitball pitchers, the number raised upon by the American league. Finally, it was agreed to amend the rule as follows:

"As at no time during the progress of the game shall the pitcher be allowed to (1) apply a foreign substance of any kind to the ball; (2) expectorate either on the ball or his glove; (3) to rub the ball on his glove, person or clothing, or (4) to touch the ball in any manner, directly or indirectly, what is called the 'shine' ball, 'spit' ball, 'mud' ball or 'emery' ball. For a violation of this rule the pitcher shall be ordered from the game and be barred from participation in any championship contest for a period of ten days."

LAST FREAK BALL PITCHERS

In adopting the foregoing rule against freak deliveries it was understood and agreed that all bonafide spitball pitchers listed by the club owners and presented to the heads of the two major leagues prior to the starting of the season, should have only the season of 1920 to use the so-called delivery, after which it will not be admitted in the leagues.

Highlighting the importance of recruiting ball players for the big leagues, one of those present presented the argument of a smaller diamond for boys under 16 years of age. His argument was based upon the fact that boys tend to attempt to play the national game on the regulation diamond, as a result, it is impossible to develop. The committee adopted a rule establishing an official diamond for juniors. The new diamond will be 32 feet between the bases and the pitcher's mound 50 feet from the plate.—National and American leagues.

The Guy at the Crank

Did you ever go to a picture show, And sit in the dark and stare, And wonder how in creation

The picture got up there? It is 'n' the soft, slick manager Whom you will have to thank; It's the half-baked, oily son of a gun Who cusses and twists the crank.

He goes to his little two-by-four, Iron-walled like a railroad car; He starts to make the film chase through And soon it's hotter than—well You talk of the steamship stoker, And the heat of his fire bank; But a stoker's dream is like ice cream To the chimp that turns the crank.

To the picture show is where you go To sit in the dark and stare;

You forget there's another world outside When you're snugly seated there. You watch the actors play their parts—To you it's all a dream; But it's very real to the guy at the wheel Of the picture show machine.

Just where do the operators go When they leave this vale of tears? Is there some cold place in celestial space Where they pass their after years? Or do they mingle with the throng Of happy souls in flames of rank, And hear Old Nick when the flames are thick?

Shout! "Hey, there! Twist the crank!"—Ernest Rade.

Language of the Law.

If a man were to give another an orange he would simply say: "I give you this orange."

But when the transaction is intrusted to a lawyer to put it in writing he adopts this form:

"I hereby give and convey to you, all and singular, my estate and interests, right, title, claim and advantages of and in said orange, together with all its rind, juice, pulp and pips, and all rights and advantages therein, with full power to bite, eat, suck and otherwise eat the same or give the same away with or without the rind, skin, juice, pulp or pips,

anything hereinbefore or hereafter, or in any other deed or docu, instrument or instrument of whatever nature or kind whatsoever to the contrary in any wise notwithstanding."

And then another lawyer comes along and takes it away from you.—Undisputed.

Grand Trunk Deal Is Ratified After Heated Discussion

London.—The shareholders of the Grand Trunk Railway, after listening to heated criticism, finally assented to the terms of agreement with the Dominion Government. A dozen dissentients held a meeting afterward and passed a resolution protesting against the terms.

Ottawa.—Ratification of the Grand Trunk agreement by the shareholders in London will be followed by the appointment of a committee of management. The committee will be composed of five persons. Two will be appointed by the Grand Trunk, two by the Dominion Government, and the fifth will be appointed by the other four. The committee of management will endeavor to ensure the operation of the Grand Trunk system in harmony with the Canadian National Railway, the two systems being treated as nearly as possible as one system. The committee will continue to act until the Grand Trunk preferred and common stocks are vested in the government.

A board of arbitrators will also be appointed to determine the value of the preference and ordinary stocks. One arbitrator will be appointed by the government, and one by the Grand Trunk. The third will be Sir Walter Cassels, judge of the exchequer court of Canada. The arbitration award will be met by the issue of a new non-voting four per cent. guaranteed stock.

The government will also guarantee the interest on the present guaranteed stock, of which there is 12,500,000 pounds sterling outstanding. Holders of this stock, however, will surrender their voting rights.

U. S. Farmers May Strike

"Won't Work 16 Hours a Day to Feed Highly Paid, Short-Hour Urban"

Washington.—The farmers of the United States may go on strike. Recently questionnaires were sent by the Post Office Department all over the country to farmers in connection with a move to bring the producer and consumer closer together by extending parcel post facilities. Some 70,000 replies have been received. The majority of the farmers complain bitterly of shortage of labor and the high wages they are forced to pay, and declare they will reduce or suspend production because they do not propose to labor fourteen to sixteen hours a day to supply the necessities of life to "highly paid, short-hour urban resident consumers."

Trenton, N.J.—In the hope of securing a beer bill for New Jersey that would stand the United States supreme court test, Senator Phipps, of Essex, on behalf of the Republic in control of the legislature, introduced a measure localizing the manufacture, sale and transportation in New Jersey of beverages of 2.75 per cent. alcohol by weight, which would be about 3.40 per cent. by volume.

Germany Defiant Over Trials Of War Criminals

Berlin.—Commenting on the allied note to Germany making concessions regarding the trial of Germans accused of war crimes, the Tagblatt says: "The awakening of the democratic spirit in England and Italy has had its effect in inducing the leaders of the entente to recede from their previous attitude on the extradition question."

Worwards says that the note is "now free of malice and other obscurities, which are likely to lead to complications later, but it declares the document represents the victory of sanity."

The Vossische Zeitung expresses belief that neither the German nor the entente statesmen could have acted differently in the premises. It thinks the entente will do well in abstaining from interference with the trials Germany is to hold, as the allies will thus be spared the ignominious defeat awaiting them in case they attempt to reaffirm their charges before an unbiased court."

The Pan Deutsche Zeitung finds the note unacceptable, and demands that it be met with "an unflinching No."

Protest From Railroad Workers

Declare Re-organization Bill Was
Destructive To Constitutional
Privileges

Washington.—Organized railroad workers and union labor in general, contending that the re-drafted railroad reorganization bill was destructive of the employees' constitutional privileges and liberties, called upon congress to defeat the measure in its entirety. At the close of an all-day conference representatives of the fifteen railroad unions made public a memorandum to congress making this suggestion.

Samuel Gompers, president of the American Federation of Labor, and Frank Morrison, secretary, attended the conference. The memorial embodies high declarations, received, must accommodate themselves to this basis fixed for capital. This act makes the public and labor subservient to capital."

Lumber Shortage Threatened

Caused by Steady Shipment of Canadian Supply to the United

Ottawa.—The board of commerce has been asked to consider the problem of a threatened lumber shortage in Manitoba, Saskatchewan and Alberta, caused by the steady shipment of the Canadian supply to the U.S. American firms are said to be conserving their own supplies and buying up a large part of the visible supply in Western Canada for their present use.

H. W. Whitby, K.C., counsel for the board of commerce in Winnipeg, telegraphed to the board of commerce here as follows:

"The chief inspector of crown timber agencies reports that a serious shortage is being created in lumber supplies in the three prairie provinces by United States concerns buying up large valuable stocks for shipment south. The United States firms are holding American lumber from their own markets for a rise in prices and are dealing largely in the Canadian supply. An immediate investigation will demonstrate this."

"Please advise what steps, if any, should be taken by me. My informant states the result will be extremely serious unless the movement is checked."

The board of commerce is considering the matter.

The collarbone is more frequently broken than any other bone in the body.

Takes Action to Prevent Strikes

Berlin.—Gustave Noske, commander-in-chief for the greater Berlin district and Brandenburg province, has issued an order applying to Berlin and Brandenburg threatening imprisonment or a fine up to 50,000 marks for inciting persons, by speech or in writing, to stop work, which would affect the production or distribution of foodstuffs. The decree is directed against threatened strikes of the bakers and hotel-keepers.

Changes In U. S. Immigration Laws

Would Make It Necessary for Aliens to Report and Register Every Year

New York.—Amendment of the immigration law so as to require aliens to register and report once a year to some federal official, is one of the several recommendations made to the National Republican Club by its subcommittee on immigration.

On repeal of the laws in certain western and southern states that permit aliens to vote who have only declared their intention to become citizens, stringent regulation of the foreign language press in the United States and creation of a permanent immigration commission to study the effects of past and especially future immigration were other recommendations.

Russian Situation Bad

Ally Officials Fearful of Bolshevik Triumph in Southern War Area

Constantinople.—The situation in Southern Russia is so uncertain that the allied officials are fearful of a general Bolshevik triumph, more, however, through the internal dissensions than the entrance of Red forces from the outside.

General Schilling is at Sebastopol commanding the volunteer forces which held the Crimean isthmus.

The surrounding lagoons are frozen hard, however, and it is feared the Bolsheviks may approach on the ice. Sebastopol harbor is cluttered with useless shipping. Ten thousand persons are registered, willing to get away, while 11,000 more are on ships from Odessa without adequate food or medicine. Typhus is raging among the refugees. It is impossible to take away the population, as commanders of allied warships in the harbor apparently lack authority for such action.

An agreement has been reached between General Denikin and the Cossack supreme council. The Terek Cossacks are giving their wholehearted support, but the Don and Kuban Cossacks are making reservations which will weaken the anti-Bolshevik strength and will make the Crimean situation doubtful.

Canada's Favorable Outlook

Duke of Devonshire Paints a Bright Picture of Future of Dominion

Ottawa.—That Canada has every reason to be gratified with the present outlook, more particularly now that educationists were attacking the heavy task of carrying on a huge campaign to deepen and strengthen the moral and spiritual factors in national education, was the keynote of a speech delivered by the Duke of Devonshire, Governor-General of Canada, to the delegates to the National Council of Education here.

Dr. Parmelee, of Quebec, urged for a serious consideration of the bilingual question. If they were to have peace and harmony it was absolutely necessary that they give the French-Canadians the right to preserve their mother tongue.

Noted Indian Sniper Dead

Credited With Having Killed Over a Hundred Germans

Moravian Town, Ont.—George Stonfish, Canada's most noted Indian sniper for three years in France, was frozen to death near his home on the reserve. Stonfish was the first Indian to enlist after the outbreak of the war, joining the Canadian army on August 6th, 1914. In his capacity as a sniper, he is credited with having killed over a hundred Germans, but he himself escaped without a wound. The coroner decided that an inquest was unnecessary.

Italy Still Has Food Cards

Rome.—Owing to the high rate of exchange, the difficulty of securing transportation and the scarcity of supplies, the council of ministers has decided to establish card systems for the necessities of life under the same conditions as during the war. Cards, therefore, will be required for bread, rice, macaroni, coal, and fats.

British Navy Can Cope With any Emergency

Manchester Guardian Rides Idea of Amalgamating the Ships

London.—Discussing editorially Admiral Jellicoe's tour, the Manchester Guardian says it exerts a good deal of controversy in Canada, where the newspapers said that this might suggest a special building program for the Dominion and a plan for amalgamating the ships built with the British navy if the emergency should arise.

"We don't believe that any such foolish scheme is contemplated," continues the Guardian. "No emergency to begin with, is conceivable with which the British navy is not amply adequate to cope, and even if it were not so, the method of shaping and directing naval policy from Whitehall for the dominions would be the worst imaginable to meet the need. It cannot be too clearly realized that the tremendous help which the British overseas nations have accorded to the allied cause, so far from making the centralization, the imperial policy has given the separate members of the Commonwealth a title as they never before held toward their own destination."

"While the Dominion policy is against the inclusion as items in the plans of imperialism, and there could be no graver error of statesmanship at this time than to imagine they would meet a scheme for putting armed forces at the disposal of the imperial council with anything but profound suspicion."

British Watching Bolshevik Agents

Home Secretary Says Particulars Ought Not to Be Published

London.—The Home Secretary, Edward Short, stated in the house that the activities of Bolshevik agents in this country were receiving careful attention, but he did not think it in public interest to publish particulars. This was in reply to the question as to whether his attention had been called to the fact that the underground activities of Bolshevik agents here had greatly increased of late, whether the police had recently seized large quantities of propaganda, and if any newspapers and British subjects were being subsidized by Soviet money.

Single-handed neither the farmer nor the packer can expect to enter the vast field for exports; only by the United efforts of both can it be done.

W. N. U. 1304

Wilson Replies To Note On Adriatic Question

Washington.—President Wilson has prepared and sent to the state department a reply to the entente premiers on the Adriatic question. He is understood to have stated the position of the United States government with a degree of finality.

The original draft as prepared by Mr. Wilson was sent to Acting Secretary of State Polk for his personal study, as he was on the head of the American mission when the Adriatic decision of December 9 was reached at Paris, and is therefore familiar with all the preliminary negotiations.

The president is understood to have adhered to the position taken in his note of February 10, in which he informed the allies that if they were to proceed to a settlement of the Adriatic question without the participation of the United States Government a situation might be created where the United States might have to consider whether it could be a party to the treaty of Versailles, and the Franco-American pact.

While conciliatory, the premier's reply to this original note was argumentative.

Mr. Wilson in his answer is understood to have met this argument point by point, and is believed to have again called attention to the policy of self-determination as enunciated in his fourteen points and his other declarations during the war which were accepted by the Central Powers, as the basis for peace.

Although it makes clear that the United States Government has not changed its position, it took when the original Adriatic agreement was made at Paris, the president's note is not regarded as the final chapter in the negotiations. The premier, in their reply to the original communication, are said to have left the way open for agreement along the three

provisionally accepted by the United States, and with the receipt of the United States note it will be for them to decide whether the ultimatum previously sent to Jugoslavia, embodying the sentiments to which the United States did not subscribe will stand.

Nurses Arrive From Siberia

San Francisco.—One hundred and forty American Red Cross women arrived here from Siberia on the army transport Great Northern. Women members of the party told of their experiences with cholera at Harbin. From Harbin they went to the foothills of the Ural mountains and aided in the evacuation of the thousands of children.

You Can Be A Partner In Several Of These Factories!

This is one of a chain of such factories as will be operated in the larger cities of Ontario and Quebec. These plants convert garbage, mine wastes, etc., into a fuel that is BETTER and much cheaper than Anthracite Coal. This plant's output capacity is 200 tons per day, and at \$1.00 per ton profit.

THE DIVIDENDS WILL BE LARGE, and will multiply the value of the stock. You can invest \$100.00 to \$1,000.00 in this, but no more, as \$1,000 is the limit of allotment to any person. Shares are \$500 each today—but will multiply during next few months.

DON'T HOARD YOUR MONEY, WHEN IT CAN BE EARNING YOU BIG INTEREST—and multiplying its value. Bankers, Manufacturers, Wholesale, Professional and Scientific men are now investing in Oakal stock, and since they did so for big returns, don't you think you should, too? Send for our literature and get in line for real wealth.

Overcrowded Warsaw

Warsaw, the capital of Poland, is probably one of the most densely populated cities in the world. Its growth in area has been retarded by the fact that under the Russian regime, certain fixed city limits were drawn many years ago, and for military reasons no houses were to be built outside of these limits. In a recent census it was found that the number of inhabitants in a building in Warsaw was about seventy, as compared with only seven or eight in London.

HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

Miss Eva P. Yatesman, Krugersdorf, Ont., writes: "I feel that I must write and tell you of the benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly ill with my heart nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls, wherever I was, that it was not safe to leave me at home at any time. At last I decided to resort to proprietary medicines, and took several different kinds, but seemed to receive but little benefit from them. One day noticing the advertisement of Milburn's Heart and Nerve Pills I decided to try them, and before I had taken more than two boxes I could see they were helping me. I have taken ten more boxes, and am almost cured of those terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise any one troubled with their heart to try them, as I am confident they will find relief."

Milburn's Heart and Nerve Pills are sold by all dealers or mailed direct on receipt of price by The J. Milburn Co., Limited, Toronto, Ont.

Water Development Scheme Considered

Project to Utilize South Saskatchewan River Supply

With the object of improving the proposal to develop a water supply from the South Saskatchewan River to serve the area lying between the river and the cities of Regina and Moose Jaw, and including those cities, the Saskatchewan Government has brought in a bill in the legislature to appoint a commission of three members, of which Major A. McPherson, consulting engineer to the Local Government Board, is chairman. This commission is charged with the duties of making a survey of the whole problem from an engineering and financial viewpoint, and must also inquire into the water rights granted by the Dominion Government to irrigation companies and others in Alberta where the headwaters of the Saskatchewan River are situated.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poison from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruit taste. Give directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

Western Boards of Trade Federated Body to Boost for Western Canada

Steps have been taken to organize the Western Canada Board of Trade into a federated body with the object of united action in the boosting of Western Canada. The Boards of Trade at Winnipeg and Brandon have definitely accepted this move, and according to information received from other Western cities the project is being favorably received. It is likely a convention to consider definite action will be called soon.

Satisfying Relief FROM LUMBAGO

Sloan's Liniment has the punch that relieves rheumatic twinges

This warmth-giving, congestion-sterming, circulation-stimulating remedy penetrates without rubbing right to the aching spot and brings quick relief, surely, cleanly. A wonderful help for external lumbago, strains, stiffness, headaches, lumbago, bruises.

Get your bottle today—costs little means much. Ask your druggist for it by name. Keep it handy for the next time. The big bottle is only 35c. 70c. 1.40. Made in Canada.

Sloan's Liniment Keep it handy

Universal Wireless Phones

China Is Said to Be One of the Progressive Nations in This Form of Communication

Italian newspapers publish an article by Guglielmo Marconi, the inventor of wireless telegraphy, which says that the United States heads the list of all countries in wireless inventions. "A strange phenomenon is that most progressive countries of western Europe have not yet developed wireless telephony, while China, the most backward nation, daily uses the wireless telephone for communication between such and rural districts," Signor Marconi says.

Within this year, wireless telephony will substitute the present system with great economic advantage, suppressing the cost of the telephone lines and their upkeep. They will also do away with the interruptions due to atmospheric causes," the inventor claims.

Tuberculosis among miners has decreased since the introduction of electric power into South African gold mines.

Market For Toys In Great Britain

A Splendid Opportunity If Canadian Manufacturers Can Supply Demand

Toys sold on the English market at the present time have not reached a very high degree of excellence, and as the prices are very high, Canadian manufacturers have a splendid opportunity to sell large quantities in Great Britain, according to a Canadian Government trade report. The report adds that while Germany will undoubtedly be an important competitor in the British market, the manufacturers of that country will probably confine their attention as in the past to the cheaper grades of toys. In the better class of toys, Canadians should find their opportunity.

THE BEST TONIC FOR NERVOUS PEOPLE

Increase Your Nervous Energy by Building Up the Blood with Dr. Williams' Pink Pills

Nervous people who have not yet developed a disease that can be recognized and treated by the medical profession have the greatest trouble in finding relief. Irritation, headache, sleeplessness, nervous indigestion, all these discomforts make life miserable but are endured rather than run a doctor's bill without hope of recovery. Every such sufferer should know the danger of such a condition to the nervous system. Nervous debility and even paralysis may result if the tone of the nerves is not restored by building up the blood. As a tonic for the blood and nerves, Dr. Williams' Pink Pills have been used with the greatest success. They have a direct action on the blood and therefore enable it to carry to the nerves the elements they need to fully restore their normal functioning and at the same time improve the general health. The benefits that follow the use of this medicine, as shown by the statement of Mrs. Henry Marsh, R.R. No. 3, Fort Rowan, a well known school teacher, who says: "Some years ago I became greatly run down and was in this condition for nearly a year. A doctor whom I called in said I was suffering from nervous prostration. It would hardly be possible to tell all the symptoms of my case, but any one suffering from nervous prostration, breakdown will know what I suffered. As I did not seem to improve under the doctor's treatment, I decided to try Dr. Williams' Pink Pills, and the decision was a fortunate one for me, as I soon found some relief through the use of the pills and after taking eight boxes I was able to get on my feet. I am now strong and hearty, without an ache or pain, and for my present recovery I feel I am indebted to Dr. Williams' Pink Pills, and can heartily recommend them to any one suffering from nervous prostration. You can procure Dr. Williams' Pink Pills through any dealer in medicine. They will be sent you by mail for 50 cents a box or six boxes for \$2.50 by writing direct to The Dr. Williams Medicine Co., Brockville, Ontario."

Minard's Liniment Relieves Neuralgia

To exterminate grasshoppers a Wisconsin man has invented a device to be pushed across a field, the insects jumping against a polished metal surface, from which they slide between rollers that crush them.

Charcoal is insoluble in water.

Colds Cause Headaches and Pains, Feverish Headaches and Body Pains caused from a cold are soon relieved by taking LAXATIVE BROMO QUININE Tablets. There is only one "Bromo Quinine." E. W. GROVES' signature on the box. 30c.

How to "BE FIT" AT SIXTY

BY DR. LEE HERBERT SMITH

As our boys "came marching home," they brought a certain red-blooded doctrine, and showed us the glory of a perfect body. They will show us how to "keep fit," even if we have passed middle life and are beyond the athletic stage. For the tired business man, the man who feels the daily grind and the nightly fog, has meager appetite, headaches, nerves unstrung, is gloomy, ending in a soggy brain, try the right way. Get out of bed, open the window, breathe deeply, exercise or use dumb bells, until in a warm glow.

Investigating Western Industrial Resources

Canadian Trade Commission to Take Survey of Industries Already Established

An official of the Canadian Trade Commission will visit the West during January and February, to become acquainted at first hand with the products of this part of the Dominion, both domestic and export. His program is to take a survey of the industries already established, as well as of those in prospect if possible.

Commenting on this visit, the Calgary Herald says editorially: "If the work this official is undertaking is done thoroughly it should be of inestimable value. Such a survey has never before been attempted, and the report when completed is sure to surprise even those who imagine they are keeping in close touch with development in Western Canada."

"It should be useful to capitalists seeking profitable spots for investment of their cash. We have been told by more than one visiting manufacturer from the east, Canadian and American, that this part of the Dominion is already populated thickly enough to justify establishment of many more manufacturing plants than we now have."

Automobiles and Prosperity

It is estimated that \$221,433,184 is invested in automobiles in Saskatchewan. According to figures collected by the Saskatchewan Automobile League, there are 54,754 cars in the province. For the upkeep and running expenses of these cars, Saskatchewan automobile owners expended about \$48,246,170 in 1919. Since the great majority of the inhabitants of Saskatchewan are farmers, very few of whom do not own at least one automobile, these figures indicate a prosperous state of agriculture in the province.

Never dispute with a man more than seventy years of age, or with a woman of any age.

The total deaths in the Canadian army during the great war up to December 31st, 1918, were 60,383, of whom 35,566 were killed in action and 12,420 died of wounds.

To be twice married within one hour to the same girl and by different clergymen is a matrimonial stunt just pulled off on board a Newfoundland coastal steamer.

A special train of forty-two cars is being made up at Bloomington, Illinois, for the accommodation of a number of farmers and their families who leave for Canada on March the 23rd.

We understand that the Italian-Belgian Co-operative Co. has secured a lease of the building now occupied by Mahi Moon as a restaurant, into which they hope to move about April 1st.

William Ivins, one of the seven accused strike leaders of Winnipeg, was found guilty by the full court of King's bench on a charge of contempt of court and was bound over to keep the peace for three months on \$2000 security.

News has been received of the death in Ottawa of Rev. H. Girling Anglican missionary among the blood Equimaux in the Arctic circle. A few years ago we took occasion to refer to him as "girling all his life."

A woman has just made application for divorce from her husband on the ground that her husband's name (her adopted name) was too difficult to pronounce. It was Polish and contained about forty letters so intermingled that no one could give proper pronunciation to any two letters in it.

The longest lawsuit on record lasted over four hundred years. It was a dispute about some land in Poland, the people interested being the Sobieskis of Orlowo and the Sobieskis of Podlowo. It began in the year 1490, and a settlement was arrived at in 1890, the land being then divided among the then representatives of the original litigants.

To Establish Money-Saving Store:

Word from Detroit states that the Ford Motor Company has taken steps to reduce the high cost of living for their employees by establishing three stores from which groceries and other necessities are to be sold at cost. One of these stores is located at the Ford blast furnace, where 15,000 are employed, one at the Fordson tractor plant where approximately 5000 work and another at the parent plant in which 55,000 are now engaged.

In the main store at the Ford factory the stock consists of a line of staple groceries, medical supplies, workmen's clothing and meats. The stores are run on the cash and carry plan and the customers bring baskets to save the expense of wrapping the articles. Expense is held to a minimum. Customers enter one door, pass along the counter, choose their articles, pay for them and leave through another door. While the saving varies, it averages easily from 8 to 20 per cent. While the stores have been created especially for Ford workers, customers who are other than these have not been turned away.

Carload quantities of food are often secured at great savings, and then special sales are held. The first big sale ever held in the factory store resulted in a sale of more than 35,000 pounds of pork in one day. Many of the workers bought halves and some brought whole pigs at a saving of about 15 per cent on the market price. Special sales of beef, chicken, ham, bacon, apples and other commodities are handled in the same manner.

Communication

The Editor of The Enterprise

Dear Sir:

We notice in the last issue of your valuable paper, the reason given by the Chairman of the school board for closing up the school on Ash Wednesday—instead of an explanation for closing the school on a day which has been a school holiday for years. The good old chairman might of put the parents wise as to why it was necessary for the children of the high school to lose two and one half days in one week in order to mobilize and demobilize the Opera House for the Teachers Alliance dance, a month or so ago.
